RHEUMATISM CAN NOT BE CURED

BY RUBBING WITH LINIMENTS AND OINTMENTS.

If you are one of the many thousand victims of torturing Rheumatism, make up your mind today that you will abandon your efforts to rub the disease away with liniments, lotions, ointments, and local applications. Such treatment by itself is not only futile and devoid of results, but is a waste of time, during which the disease is getting a firmer hold on your system.

Rheumatism is a stubborn disease. It is not on the surface, therefore you must not expect to be able to cure it with remedies applied to the surface. No one ever vet effected a permanent cure in this way, so why should you contreatment that has failed in thou- tem than the disease itself.

The experience of others afflicted with Rheumatism is your best guide Rheumatism and other blood disorand by following their advice you can not only save yourself untold suffering, but rid yourself of a disease that will eventually wreck your body and leave you helpless. Almost every victim of Rheumatism has practically the same experience. the blood and cleansing it of all They are so impressed with the pains and suffering of the disease the market for fifty years, and aland are so anxious to get rid of most every druggist has sold it ever them that they have treated the since he has been in business. It is pains alone, and overlooked their sold under an absolute guarantee cause. They have rubbed with kin-that it is purely vegetable. iments, lotions and ointments in an Our medical department is main-

Such was the experience of Mr. plete advice as to the treatment Caspus Bibb, of 2424 Tenth Ave-necessary for your individual case. nue. Bessemer, Ala., who writes to for which no charge is made. Adterrible affliction. He says:

Aug. 1, 1913.

"A few years ago I suffered from a serere attack of articular Rheumatism that rendered me almost helpiess. By the use of the usual external remedies I, was able to check the pain somewhat, but did not regain the full use of my limbs, and on cloudy days or when exposed to dampness or cold I would immediately suffer from stiff and aching foints. I began to take S. S. S. and all symptoms at once began to disappear, until now I have no fear of exposure to the worst sort of weather. I feel it my duty to recommend S. S. S. to all who wish to free themselves from the torturing clutches of

Physicians now agree that many forms of Rheumatism are caused by a germ in the blood. The pain is not the disease itself, but merely a symptom-nature's warning to you that you have been attacked. The only intelligent treatment, therefore, is through the blood: treatment directed toward eliminating the disease germ from the blood For years nearly all the prescriptions used by the medical profession were those containing iodide of potash or mercurial substances. but in nearly every case these mintinue to suffer while relying upon erals are more injurious to the sys

One reason why S. S. S. is so successful in the treatment of ders is the fact that it is a purely vegetable remedy, being made from roots and herbs gathered direct from the forests. It contains not a particle of mineral substance, and acts by driving disease germs from impurities/ S. S. S. has been on

effort to get temporary relief, with tained for the benefit of the afflictno chance of doing themselves any ed, and if you will write fully about your case you will be given comtell how he found relief from this dress Swift Specific Co., 405 Swift Laboratory, Atlanta, Ga.-Adv.

Thousands Can Own the New Economic Six

AMERICAN inventive genius has triumphed again. Efficiency has cut dollar after dollar from the cost of production. A series of typically American forward steps have made this possible and have thereby greatly increased the buying power of the average man's automobile dollar.

Here is a remarkable automobile, moderate in cost, light in weight, easy to handle, remarkably safe and economic; yet a smart classy car, posessing all of the easy-riding qualities of a big, luxurious, heavy car, a Six with Pride of Ownership stamped all over it.

Naturally the question is, 'How is this possible?"

And the answer is: "Radically New, but thoroughly tested and proven Principles of Construction-and Quanity Production.

A new type of three point Cantilever Spring Suspension gives this 112-inch wheel-base car the rolling

ease and freedom from roadshock of a car of 142 inch wheel-base. The wheels also hug the road-bed, avoid side-slip, and lunging ahead.

The chassis is a marvel of simplicity and lightness. Weight is approximately 2100 pounds. Lightness, combined with new efficiencies developed in the engine, get big results from gasoline. averaging 17 to 20 miles per gallon during the 200,000 miles of testing.

Quality is inbuilt-over two years of testing demonstrated it.

The plant, where the new six will be built, is as wonderful as the Six itself, and occupies close to two million square feet of floor space. Every modern and new device is employed to save labor, increase accuracy, and reduce manufacturing costs-the result is big production-400 to 500 completed Sixes per day.

The new Six is the fourth great industry to be added to the enterprises of the Willys Corporation. The Electric Auto-Lite has been placed on over 1,400,000 automobiles and is easily the leading starting and lighting equipment of today. New Process Gears are standard with most of the great manufacturers of automobile, trucks and tractorsmaking the Willys Company one of the great leaders in the Gear Cutting industry. The Willys-Light, although a new unit of the business. booked orders for 20,000 sets of farm and house lighting systems during the month of August alone.

The factories of these units-at Toledo, O., Syracuse and Poughkeepsie, N. Y. together with other controlled and closely allied industries, will supply practically everything needed for the new Six that is not produced in the parent plant itself.

Anyone desiring further information about the plans and the car program of the Willys Corporation should write for our booklet.
